

What are the different parts of a poppy?

The challenge

Poppies are the flowers which are used during remembrance. You may have seen some people wearing a paper poppy around the time of Remembrance Day in November.

Your challenge is to look very carefully at the poppies which you have chosen. You may want to look at the colour, the stem, the petals and feel the textures of these parts of the flower. Very carefully, take off the petals to have a look inside the poppy. What do you see?

Your next part of the challenge is to create your own poppy choosing from a range of art materials - these might include collage, paint, drawing materials. You may wish to sketch your ideas first and then work with a range of art materials.
