

Poppy stained glass windows challenge teacher's notes.

Introduction

Before the children are involved in the following activities, they should share and discuss their knowledge of the poppy. Along with children's prior knowledge the following should be discussed:

- It is a flower which grows wild outside.
- It grows from a seed and produces a red flower.
- It is used to remember people who have been in war or conflicts.
- Plastic replicas are sold in November to raise money for ex-service personnel and their families.
- It became a symbol for wars after it grew in a place called Flanders Fields in Belgium and France once a war had finished.
- It symbolises new life.

Poppy stained glass windows challenge. (Expressive arts)

Involve the children in a discussion of stained glass and where it can be found. If they have not seen stained glass windows before project images onto an interactive whiteboard or print examples out for them to discuss. Discuss with the children that stained glass windows used in churches usually show religious scenes from the Bible.

Children can choose from a range of materials (e.g. acetates, tissue, cellophane, felt pens etc) to create their own stained glass window using the poppy flower as their stimulus. They should, however, be encouraged to keep their images large and section with thick lines.

Children should then decide which is the most appropriate window to display their stained glass. (poppy seeds resource P11).
